Access authorization will be made with your name at the main gate. On the first day, it will be necessary to present your passport, but this won't be required on the following days.

The house is located inside a gated community, approximately 5 km from the main entrance. Most guests use a car to get around, but we also have contacts for local taxi drivers, and there are delivery options available.

We also suggest stopping by a grocery store before entering the gated community, as there are no shops inside.
